## Education

<b>VIT, Bhopal</b> , Btech in Computer Science	Nov 2022 – Present
• GPA: 8.14	
<b>Kendriya Vidhalaya , Gurugram</b>	2021-2022
• 12th, CBSE	
• 90%	
<b>Kendriya Vidhalaya , Gurugram</b>	2019-2020
• 10th, CBSE	
• 84%	

## Projects

<b>FUGIN</b> 🌐	Aug 2023 - Oct 2023
<b>A visually stunning and highly responsive frontend website showcasing dynamic animations using GSAP</b>	
• Role: Frontend Developer, Designer	
• Engineered an engaging and interactive user experience with seamless animations, ensuring aesthetic appeal and smooth responsiveness across devices.	
• Technology Used: ReactJs, GSAP, TailwindCSS	
<b>TRAVO</b> 🌐	Nov 2024 - Present
<b>A feature-rich rental platform tailored for the Indian audience, enabling seamless room bookings, chats, and bidding</b>	
• Role: Full-Stack Developer	
• Developed an Airbnb-like web application where users can rent, book, and bid on rooms, with real-time chat functionality to enhance collaboration between hosts and renters.	
• MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js (for server-side rendering), TailwindCSS, Socket.io (for real-time chat)	
<b>BuckShot Routlette Multiplayer</b> 🌐	Nov 2024 - Dec 2024
<b>A Multiplayer Russian Roulette-Style Game</b>	
• Role: Full-Stack Developer	
• Built an interactive multiplayer game inspired by Russian roulette, where two players compete in real time using WebSockets for smooth and synchronous gameplay.	
• Technology Used: Node.js, Express.js, Socket.io, React.js, TailwindCSS	

## Achievements

- Developed a game guide website that competes with existing platforms, providing valuable insights and strategies to help players progress. Received appreciation through positive feedback from users, highlighting its effectiveness and impact.
